IMPROVING COMMUNICATION WITH BUILDERS ARCHITECTS SUPERINTENDENTS

Graeme Jones

Director of Housing Procurement

Welcome to the first edition of

HOMESWEST CONSTRUCTION NEWS

This newsletter is a new initiative to improve the lines of communication between the Ministry of Housing (Homeswest), builders, architects and superintendents.

We will be distributing HOMESWEST CONSTRUCTION NEWS to you quarterly as a means of keeping you up to date on a range of topical issues and to give you an insight into how the Ministry is doing its business.

The newsletter is designed to keep you informed, so if you have any ideas or comments on what you would like to see in your newsletter, by all means give us a call.

Just a reminder that over Christmas, just like you, some Homeswest staff will be taking holidays.

While we will have reduced staff available, we'll make sure all payments we have received are processed.

Finally, on behalf of the Ministry of Housing thank you for a tremendous year under trying circumstances. We wish you and your families a restful and enjoyable Christmas break. I look forward to working together once again in 2001.

HOMESWEST HINT

As Glen Jakovich says, ThinkSafe WorkSafe!

Safety training as always continues to be extremely important.

Homeswest through the MBA is expanding its safety audit checks into country areas. Excellent courses are available through both the MBA and HIA and these are especially recommended for builders, sub contractors and superintendents. Let's all work towards an accident free 2001.
