

Perth architect opens new Mandurah office

□ JOHN Kannis has opened a new office in Smart Street Mall.

PERTH architect John Kannis has chosen rapidly developing Mandurah in which to open a country office.

Commended for his flair and imagination in restoration projects, he is particularly interested in canal and riverfront development and studied the Mandurah waterways for his university thesis.

One of his most recent tasks was the restoration of an 1898 Hay Street residence — “one of the classiest buildings in Perth city centre,” — to flats and offices.

Mr Kannis is versed in many aspects of architecture, including interior design, kitchen restorations, coordination and supervision of subcontractors and the design of modern or art deco style feature furniture.

John Kannis and Associates' new office is located at the bottom of Smart Street Mall.
